

Technical Data Sheet

Application fields:	Self-adhesive connection tape with weatherproof surface.
Material:	creped aluminium fully coated with butyl and reinforcement inlay made from polyester composite material
Colour:	brick red, black, anthracite, zinc grey, dark brown
Thickness:	approx. 1.2 mm
Temperature resistance:	-20 °C to +80 °C
UV resistance:	ensured by metal surface
Storage:	cool and dry
Processing temperature:	+5 °C to +40 °C
Roof pitch:	> 10°
Bitumen compatibility:	yes
Bleifrei:	yes
Processing notes:	The area must be dry, stable and free of dust and release agent. Folds and kinks must be prevented.
