

Technical Data Sheet

Application fields:	Self-adhesive collar for sealing openings through the airtight level, e.g. for vapour barriers, sarking membranes.
<u>Adhesive sleeve</u>	
Material:	HDPE carrier film (Tyvek®) / polyacrylate adhesive glue
Colour:	white
Thickness:	approx. 0.2 mm Tyvek® carrier film / approx. 0.12 mm adhesive glue
Adhesive force:	> 25N/25mm
Tensile strength:	> 50N/25mm
Temperature resistance:	-30 °C to +100 °C
UV resistance:	very good
<u>Flexible Dicht-Membran</u>	
Material:	EPDM
Colour:	black
Elongation at tear:	≥ 300 % (EN 12311-2)
Tensile strength:	≥ 7 MPa (EN 12311-2)
Thickness:	1 mm ± 20%
Fire protection class:	E (EN 13501-1)
Storage:	cool and dry
Processing temperature:	+5 °C to +40 °C
Processing notes:	The area must be dry, stable and free of dust and release agent. Folds, kinks and tensile stresses must be prevented.
