

Technical Data Sheet

Areas of application:

Prefabricated self-adhesive interior and exterior corners, for creating a permanently airtight and flexible connection of e.g. windows, exterior doors, and rafters to the air sealing layer.

Base material

Material:

Synthetic tangled fleece / butyl rubber

Colour:

grey

Thickness:

approx. 0.1 mm fleece / approx. 1 mm butyl adhesive

Butyl density:

approx. 1.5 g / cm³ (DIN EN ISO 10563)

Temperature resistance:

-40 °C to +100 °C

Outdoor exposure:

6 months

Integrated Flex-Point

Material:

Highly flexible PE film with scrim / Reinarcylat adhesive

Base colour:

black

Thickness:

approx. 0.5 mm

Temperature resistance:

-40 °C to +80 °C

UV resistance:

outdoor exposure time with UV exposure 12 months

Storage:

cool and dry

Processing temperature:

+5 °C to +30 °C

Bitumen compatibility:

yes

Application instructions:

The surface must be dry, load-bearing, free of dust and release agents. Porous substrates such as concrete, plaster, etc. must be treated in advance with BUBI LF Adhesion Primer or Eisedicht Spray Primer. Avoid folds, creases and tensile stresses.
